Sensori® Thermostatic Shower Systems by Brizo® Offer a Fully Customizable Solution for the Bath

Fashion-forward design coordinates perfectly with any Brizo® bath collection

INDIANAPOLIS – Combining luxury with leading-edge design, Sensori® high-flow custom shower systems are a fully customizable shower solution from Brizo®. The high-performance system coordinates easily with any Brizo bath collection, helping to carry high-end design throughout the whole bathroom.

“The Sensori shower systems are perfect for people who see their shower as a quiet sanctuary away from the stresses of everyday life,” said Laura Brooks, Brizo senior brand manager. “They seek an indulgent experience that renews and invigorates their body and senses.”

About the Sensori® High-Flow Custom Shower Systems:

- Sensori® Thermostatic Valves
 - At the heart of the Sensori experience is the Sensori Thermostatic Valve, engineered to promote ease of installation and keep water temperature remarkably consistent, at plus- or minus- 3.6 degrees Fahrenheit (plus- or minus- 2 degrees Celsius). This feature ensures that Sensori meets ever-evolving codes and requirements, while delivering a more precise temperature throughout the shower.
 - The Thermostatic rough shares the same bonnet nut and test cap as the original MultiChoice® Universal Valve, giving installers confidence and familiarity with the installation.
 - Established after rigorous research and testing, the thermostatic valve allows for a full custom shower at a 12 gallon per minute (gpm) flow rate at 60 pounds per square inch (psi) while using roughly 25 percent less water than many competitive high-flow thermostatic valves that typically flow at 16 gpm or more.
- Touch-Clean® Technology
 - Touch-Clean rubber spray holes allow users to easily wipe away calcium and lime build-up from the spray face of the showerhead or handshower with the touch of a finger.
- H₂Okinetic® Technology
 - The science behind H₂Okinetic® Technology creates a shower experience like no other. Each showerhead, handshower and body spray with H₂Okinetic® Technology contains an internal system that sculpts the water into a unique wave pattern, creating a consumer-proven feeling of more water, without using more water.
- Variety of designs and finishes available
 - With nine distinctively designed styles, multiple showerhead options, body sprays, and handshowers, Sensori® Thermostatic showers provide the ultimate customizable shower experience by Brizo.
 - Every Brizo bath collection offers a perfectly coordinated Sensori® Thermostatic shower system.

About the Brizo® Brand

Brizo is a luxury fittings brand for those who understand that fashion isn't only about the clothes they wear – it's a lifestyle. The Brizo product team designs and crafts distinctive kitchen and bath suites that artfully blend form and function, transforming minds, moods and spaces. This approach has elevated the Brizo brand and its fashion-forward collections, many of which have been recognized by various outlets and organizations, including Design Journal with its Adex Gold Award™ and the Red Dot Award™. Rooted in fashion and design, the Brizo brand has been a primary sponsor for fashion designer Jason Wu since 2006 and a national sponsor of the St. Jude Dream Home® Giveaway since 2010. Brizo is the luxury brand of fittings and accessories within the portfolio of Delta Faucet Company, a WaterSense® manufacturer partner of the U.S. Environmental Protection Agency. Brizo products are available exclusively through fine kitchen and bath showrooms. For more information or to locate a showroom, visit www.brizo.com or call 877-345-BRIZO (2749).
