**The Distinctive Artesso® Kitchen Collection by Brizo® Blends
Industrial Chic and Traditional Design**

Luxury product suite offers artisan refinement for the kitchen

INDIANAPOLIS – Inspired by detailed, early 20th century metal works, the Artesso® suite is the Brizo® brand’s newest kitchen collection. Named for a variation of the Portuguese word for artisan, the collection incorporates masculine, hand-forged design nuances with sophisticated aesthetics.

“We drew inspiration from iron-workings dating back to the early 1900s,” said Sarah Schlifke, Brizo product manager. “The industrial, yet refined, design will modernize any kitchen while offering a chic and functional focal point for the counter space.”

The Artesso Kitchen Collection is a full suite featuring an articulating kitchen faucet, single-handle pull-down faucet, a two-handle bridge design, a sleek bar faucet and a matching soap dispenser. The single-handle pull-down faucet is available with optional Brizo SmartTouch® Technology, allowing users the option to activate the flow of water with a simple touch anywhere on the faucet body, handle or articulating arm. When paired with TempID™ Technology, an LED light at the base of the faucet changes from blue to magenta to red, visually indicating the temperature of the water to the user. This unique functionality makes it easy to turn the faucet on only when needed, helping to reduce water usage, while enabling efficiency of motion during prep work and cleanup.

“Artesso was inspired by everything from factories and forged metal to farming tools and inventions of the time,” said Seth Fritz, Brizo senior industrial designer. “We wanted this design to work in a contemporary kitchen or a traditional kitchen, living as a statement piece in both environments.”

The full kitchen suite is available in the following finish options: Polished Chrome, *Brilliance*® Stainless, Venetian Bronze® and *Brilliance*® Polished Nickel finishes.
