**The Charlotte® Bath Collection by Brizo® Bridges the Gap Between
Traditional and Modern Design**
*Single-handle and handle-free configurations with SmartTouchPlus™ Technology add
convenience*

INDIANAPOLIS – The Charlotte® Bath Collection by Brizo® was inspired by the bold linear symmetry, lavish design and opulent style of the Art Deco movement and appeals to those who desire a space with clean, contemporary lines and a hint of traditional refinement.

“The Charlotte Bath Collection makes a statement that’s sophisticated without being grandiose,” said Judd Lord, Brizo director of industrial design. “With the added benefit of smart technologies, it is the perfect example of a practical indulgence.”

The handle-free electronic faucet features EPV™ Electronic Thermostatic Valve, which replaces the traditional manual valve that sits below the deck. In addition to the unique design of the handle-free faucet, the electronic valve enables a number of cutting edge technologies:

- **SmartTouchPlus™ Technology with TempID™ Technology** – The next generation of the revolutionary SmartTouch® Technology, SmartTouchPlus adds hands-free sensing to the existing touch-sensitive operation. An LED light lets users know if they are in Touch Mode (solid color) or Hands-Free Mode (flashing).
- **TempIQ® Temperature Control Technology** – This technology senses the water temperature before it leaves the spout. An LED light changes color to let you know exactly when the water has reached the desired temperature. The electronic thermostatic valve continually monitors and adjusts the hot and cold water mixture to ensure a consistent water temperature with no sudden (and unwelcome) increases or decreases. This technology also features a high-temperature limit stop at 120 degrees Fahrenheit (49 degrees Celsius), offering an added degree of safety in the bath.

The single-handle lavatory faucet in the Charlotte® collection is available with optional SmartTouchPlus™ with TempID™ Technology, allowing for touch or hands-free water activation. The LED light at the base of the faucet changes from blue to magenta to red, visually indicating water temperature.

About the Charlotte® Bath Collection:

- Full Collection of bath products with coordinating accessories and lighting, including:
 - Handle-free electronic lavatory faucet with SmartTouchPlus™ and TempIQ® technologies
 - Single-handle lavatory faucet with optional SmartTouchPlus™ Technology

About the Brizo® Brand

Brizo is a luxury fittings brand for those who understand that fashion isn't only about the clothes they wear – it's a lifestyle. The Brizo product team designs and crafts distinctive kitchen and bath suites that artfully blend form and function, transforming minds, moods and spaces. This approach has elevated the Brizo brand and its fashion-forward collections, many of which have been recognized by various outlets and organizations, including Design Journal with its Adex Gold Award™ and the Red Dot Award™. Rooted in fashion and design, the Brizo brand has been a primary sponsor for fashion designer Jason Wu since 2006 and a national sponsor of the St. Jude Dream Home® Giveaway since 2010. Brizo is the luxury brand of fittings and accessories within the portfolio of Delta Faucet Company, a WaterSense® manufacturer partner of the U.S. Environmental Protection Agency. Brizo products are available exclusively through fine kitchen and bath showrooms. For more information or to locate a showroom, visit www.brizo.com or call 877-345-BRIZO (2749).
