The RSVP® Bath Collection by Brizo® Brings Glam to the Bath
Finials made with crystals from Swarovski® add new elegance to the bath

INDIANAPOLIS – Personifying the glamorous concept of luxury living, the RSVP® Bath Collection by Brizo® offers a complete collection of faucets, shower systems and accessories. Drawing on the influences of the Art Nouveau movement, RSVP features a sensual design that follows the curves of a woman's silhouette. Adding a touch of "bling" with finials made with crystals from Swarovski®, RSVP promises to be a conversation piece in the home.

RSVP infuses an updated sense of early 20th Century fashion into home decor with finely crafted details, shimmering textures and sparking accessories. A choice of decorative metal, glass or crystal finials grace the top of the lift rod on the bathroom faucet and the Roman tub faucet, as well as select accessories. An exclusive finial made with crystals from Swarovski® with a traditional rounded design or an angled blue glass finial adds distinctive flair and creates a customized style statement.

"Like an oversized diamond paired with a classic black dress, today's glamour movement is all about slight indulgences," said Judd Lord, Brizo director of industrial design. "RSVP®, Brizo's luxurious fashion statement for the home, was designed to add that touch of elegance while at the same time transcending a variety of today's style categories from traditional, to transitional, to contemporary."

A Roman tub with optional handshower, a tub/shower with a dual-function raincan showerhead, Sensori high-flow custom shower trims and a bidet with optional cross handles all offered in Polished Chrome, *Brilliance*® Brushed Nickel and *Brilliance*® Brushed Bronze round out the collection. Creating a true suite of products, RSVP features an exclusive line of coordinating bath accessories, such as mirrors, lighting and towel bars. The towel bars are available with finials to coordinate with the lavatory faucets. Fixed at one or both ends of the bar, the matching finials add an elegant, luxurious touch to the room.

All lavatory faucets in this collection meet or exceed the WaterSense requirements, flowing at 1.2 or 1.5 gallons per minute (gpm).
