## **Rook® Bath Collection by Brizo® Delivers a Modern Twist to a Stately Design**

*Luxury product suite merges beautiful artistry with modern masculinity*

**INDIANAPOLIS** – With subtle nods to classic chess pieces, the Brizo® brand introduces its Rook® collection, the latest suite of luxury faucets, fittings and accessories for the bath. This collection combines a low spout architecture and crisp octagonal details for a stately yet modern design.

“The blocked shape of the collection was a result of its design inspiration: a rook chess piece,” said Seth Fritz, Brizo senior industrial designer. “We wanted to focus on the intersection of old and new. This faucet has a touch of modern with a hint of masculinity, along with elements of classic and traditional design.”

The Rook collection boasts a variety of options that help create a personalized space, including single-handle and widespread lavatory faucets featuring channel or closed spouts, a channel spout vessel lavatory as well as cross or lever handles on all two-handle products. The Roman tub faucets and freestanding tub filler are also available with a channel spout providing a sensory water experience throughout the complete bath. Optional SmartTouch<sup>Plus</sup>™ Technology, available on the single-handle closed spout lavatory faucet, allows for both touch-sensitive and hands-free operation.

In addition to the faucet offerings, the full suite of products and accessories within the Rook collection include:
